

> POWER Fabric Stand

- *Transportable*
- *One Person Setup*
- *Packs into Single Carry Case*

Available in 21", 25", 30", 36" and 47" widths, this frame telescopes from 55"H to 94"H. Although you can use a variety of graphic types, we recommend printing on fabric using a Dye Sublimation process. Graphics can be printed and displayed on both sides. The frames come as a single unit or can be joined together for multiple panel use.
