

> POWER Fabric Wall

- **Transportable**
- **One Person Setup**
- **Packs into Single Carry Case**

This display uses an aluminum foot and tube system. The frame is available in many sizes. Once the frame is set up, a Dye Sublimation fabric print slides over the top of the frame like a pillow case. After the graphic is stretched and zippered closed at the bottom, you have an impressive seamless backdrop. Canvas and hard cases available for transport.
